RACIAL PROFILING DATA TEMPLATE

SANDRA BLAND ACT

Del Carmen Consulting, LLC

ALEX DEL CARMEN, Ph.D

Dear Law Enforcement Professional,

The Sandra Bland Law requires you to submit Tier 2 data (items 1—12) in addition to a comparative analysis of searches and contraband found as a result of these. In order to do this, you must report searches and contraband search data for each racial/ethnic category. We have included a series of additional tables (1—4) that will assist you in reporting the required information while allowing you to analyze the data, as required by law. These tables include information relative to:

- 1) Searches
- 2) Type of Searches
- 3) Arrests
- 4) Contraband Found as a Result of Searches
- 5) Instances Where Physical Force was Used that Resulted in Bodily Injury
- 6) Audit Completion Information

Please note that this information **MUST** be categorized by race and ethnicity in order for a meaningful and useful comparison to take place. The objective is to compare contraband hit ratio data deriving from motor vehicle searches and related to minority and non-minority drivers.
